Business Continuity Health Check

Based on international standards, guidelines, and best practices such as ISO/IEC 17799, CobiT, NFPA 1600, and BS 25999

A review of your company's readiness to deal with business disruptions ranging from minor outages to major disasters.

Description

The Business Continuity Health Check assesses your company's ability to maintain continuity of operations in the event of a business disruption. It reviews business continuity practices and procedures against internationally recognized business continuity program standards such as ISO/IEC 17799, CobiT, NFPA 1600, and BS 25999.

The review covers the essential requirements for a business continuity program:

- Business Continuity Project Initiation and Management
- Risk Management and Evaluation
- Business Impact Analysis
- Emergency Response and Operations
- Business Continuity Strategy
- Business Continuity Plan Development
- Business Continuity Training and Awareness
- Business Continuity Plan Testing
- Business Continuity Plan Maintenance
- Public Relations and Communications, and
- Coordination with Public Authorities.

Depending on the needs of the business, the scope of the Business Continuity Health Check can range from one or more business units or company sites to the entire enterprise.

Method

Our team will conduct interviews and hold workshops with key members of your staff, analyze information against industry standards, and prepare and present a final report outlining strengths, weaknesses, and recommendations.

Benefits

- Obtain an impartial assessment of your company's ability to deal with business disruptions.
- Understand the strengths and weaknesses of your business continuity program.
- Receive a maturity level ranking of your company's current business continuity practices based on industry standards and guidelines.
- Gain recommendations to improve current business continuity practices and guidance for future steps.

Pricing

The Business Continuity Health Check ranges between \$10,000 to \$20,000 USD plus taxes, travel, and accommodation. It can be combined as a package together with our business continuity training services.
